

YOU ARE INVITED TO OUR SEMI-ANNUAL GROUT SCHOOL!

Since 1981

Hosted by

REYNOLDS FRENCH & COMPANY

“Increasing the Probability of Achieving Intended Results”

Considerations and Best Practices for Achieving Optimum Equipment Performance from a Machinery Grout Perspective

Presented by

TW Performance Polymers

This one day seminar will be presented on

Tuesday, April 12th or Wednesday, April 13th

Seminar Time: 8:30a.m - 3:30p.m.

Choose which day is most convenient for you!

If you are interested in ways to -

- Maintain optimum equipment performance
- Extend MTBF and foundation life-span
- Reduce equipment operating costs
- Understand the purpose and features of Epoxy Machinery Grouts
- Important considerations to proper grout installation best practices

- Then this training will show you how!

Who Should Attend? -

- Industrial End-Users
- Equipment OEM
- Engineering & Construction Professionals
 - Mechanical & Structural Engineers
 - Rotating Equipment and Reliability Specialists
 - Project Managers
 - Estimators
 - Contractors
 - Maintenance Supervisors and Planners
 - Procurement

Any size group can be accommodated

Event Location -

Reynolds-French & Company
12525 East 60th Street
Tulsa, OK 74146

[Click for a map of our location!](#)

Monday & Tuesday evenings, starting at 5:30 pm, we will host a Meet & Greet at Martini's Lounge Bar & Grill, located in the Clarion Hotel.

[Click for map of hotel location](#)

Lunch will be provided each seminar day - featuring the best Bar-B-Que around!

To RSVP, contact Paula George with the following information at any of the contact options below:

NAME(S): _____

COMPANY: _____

LOCATION: _____

PHONE: _____

EMAIL: _____

- I will be attending the seminar Tuesday, April 12th
- I will be attending the seminar Wednesday, April 13th
- I would like to attend Martini's: Monday or Tuesday
- Send me a map of Reynolds-French and hotel location
- I would like help with Hotel Reservations or Airport Pickup
- I will not attend

- RSVP by Phone - 918/252-7545
- RSVP by Fax – Fill out and fax this form to 918/252-7540
- RSVP by E-mail – Fill out & email this form to: paula@r-f.com

ITW Performance Polymers

ITW PERFORMANCE POLYMERS originally began as ITW Philadelphia Resins.

“Philly Resins” was organized in 1959 as a manufacturing and service company, selling epoxy-resin grouts, adhesives and coatings. The company has since grown to become a diversified Division of Illinois Tool Works (nyse: ITW).

ITW PERFORMANCE POLYMERS is the foremost global supplier of specialized grouts, polymers and foundation systems for improving industrial equipment performance and reliability while increasing service longevity and lowering operating costs. For over six decades our Chockfast, Escoweld, and CWC brands of grouting and foundation products have proven to be the ideal choice for a wide array of machinery grouting applications in a host of industries worldwide.

In addition to our best-in-class offering of grouting and foundation products, we also manufacture a complete array of other specialty polymer product solutions for commercial, marine and industrial use. Our ever-growing experience in world and industrial markets provide us with the resources to remain on the leading edge of technology. We continually strive to create innovative, proven solutions to difficult problems.

We’ve undergone a number changes over the years, but six decades of research and experience in industrial markets provide us with the resources to remain on the leading edge of polymer technology. We strive to create innovative, proven solutions to difficult problems.

**REYNOLDS
FRENCH
& COMPANY**

REYNOLDS-FRENCH & COMPANY began in the early 1940's as one of several small companies that repaired cracks in castings with a method of metal stitching that included small locks and overlapping threaded dowels, called "lacing". Originally a two-man operation, we set our sights on becoming a world leader in casting repair service. With each successive year, services have expanded, the company has grown, and the goal has become reality.

Today, REYNOLDS-FRENCH is recognized as the leader in repair of cracked or damaged castings, in field machining, in alignment, and in consultation for equipment problems. Our highly trained specialists are encouraged to innovate on an endless array of equipment problems faced each day. Support staff supplies coordination and countless other backup operations. Through combined people efforts, our team provides its valued customers with the best service in the industry.

Our expertise and experience assures customers that all problems will be properly analyzed and the best solutions executed in a most proficient manner. REYNOLDS-FRENCH is ever committed to finding better ways to serve customers - to give you the most value in equipment repairs.

Since 1980, we have been a distributor of the Chockfast, Escoweld and CWC product brands for ITW. We readily carry and support a wide array of epoxy machinery grouts, pourable and adjustable chocking systems, complete anchor bolt systems, cementitious grouting products, and a complete line of epoxy coatings & repair compounds to meet the needs of our customers.
